Hypot®

P L T

Our Hypot® Series raises the bar for production line Hipot testing. Improve traceability with onboard data storage and easily transfer test result data and test settings via convenient front panel USB. Take the guesswork out of your production line with the direct barcode connection to quickly associate products with pre-programmed test files. We've included advanced features like improved security and a touch screen interface that provides custom pop-up prompts displayed before each test step. We've dramatically reduced the weight and footprint of the Hypot® Series to make safety compliance a less strenuous ordeal. Quickly interconnect with the HYAMP® Series to form a complete safety compliance system.

Find the Model that Fits Your Testing Needs

	AC Hipot	DC Hipot	Ground Continuity	Insulation Resistance	EN 50191
3805	•		•		•
3855	•		•	•	•
3865	•	•	•		•
3870	•	•	•	•	•

AVAILABLE INTERFACES

- USB
- RS-232

SAFETY & PRODUCTIVITY FEATURES

- **SmartGFI®** Automatic operator shock protection
- **Remote Safety Interlock** Easily disable HV output
- **Data Transfer** Easily import/ export test files and data via USB
- **Barcode Capability** Direct barcode connection
- **Multiple Languages** Multi-Language user interface
- **PLC Remote** Basic PLC relay control
- **Prompt & Hold** Provides alerts & instructions between tests
- **Advanced User Security** Customize ID & password protection
- **Interconnection** Interconnect with HYAMP® to form a complete test system
- **Ramp-HI®** Reduce ramp time during DC Hipot
- **Charge-LO®** Confirms proper DUT connection
- **FailCHEK®** Confirms failure detection
- **Accredited Cal** Accredited calibration options available
- **WithStand®** Automation Software
- **On Board Data Storage** Save up to 1,500 Test Results on-board
